

SLIDING TERRACE DOORS

ABAKUS OKNA

LIFT & SLIDE DOOR

HST

- ▶ Premium Product of high quality designed for demanding Customers
- ▶ Excellent heat transfer coefficient and high energy efficiency
- ▶ Perfect acoustics and anti-burglary protection
- ▶ Full stability and lightness of sash movement, extraordinary ease of opening
- ▶ Almost barrier-free, perfect for families with children, elderly people and people with disabilities
- ▶ The beauty of monumental glazing, wonderful panoramic views, unlimited visibility and noticeably more natural light in the house – the door can be wide up to 5 metres
- ▶ Elegance, sophistication, the highest functionality

SLIDING DOOR

SLIDE

- ▶ Exceptionally airtight system reliably protects against noise, rain or strong wind
- ▶ Comfortable, low threshold (lower than in the PSK system) creates a barrier-free aisle and open living concept
- ▶ New generation of sliding terrace door with innovative closing movement perpendicular to the frame profile
- ▶ Impressive thermal insulation parameters and high protection against unhinging
- ▶ Intuitive ease of sash movement (without the possibility of tilting) thanks to the new Soft functions
- ▶ The innovative door system allows opening and closing of even the large-sized sashes without using any force
- ▶ A reasonable choice at an attractive price
- ▶ Wide range of colours and accessories allows the realisation of design concepts in every detail

TILT & SLIDE DOOR

PSK

- ▶ An excellent choice at a reasonable price (lower than HST and Slide)
- ▶ Modern, ergonomic and energy-efficient terrace door
- ▶ Sliding window with excellent ventilation system and tilting possibility
- ▶ High level of thermal and acoustic insulation (effective protection against noise)
- ▶ High burglary resistance class, effective barrier against unwanted visitors
- ▶ Natural daylight in the house and optical enlargement of space
- ▶ An interesting alternative to traditional turn sashes due to efficient use of space: space-saving and wider possibilities of glazing
